Description			
<p>It takes a while to wrap your head around the logic terms for filters. May I suggest replacing EXACT, AND, OR, NOR with EXCLUSIVELY, ALL, ANY, NONE, respectively? A really cool feature but a bit more out there would be to have the filter page form a sentence describing the filters you have chosen in plain English.</p> <p>eg. "You are filtering for ALL entries tagged Main Injector and NuMI and written by Kyle Hazelwood but NONE tagged Recycler."</p>
